

PESACH “KARPAS” PLANTING

The agricultural theme of Tu B'Shevat can help you prepare for Pesach. Plant parsley seedlings and nurture them, so that they eventually can be used at your Pesach seder.

Materials

- small pots or heavy paper cups
- Miracle-Gro or other seed starting material (can be purchased from any garden store such as Home Depot or Lowes)
- parsley seeds (www.burpee.com)

Directions

1. Soak parsley seeds overnight in room temperature water.
2. If using paper cups, cut 2 holes in the bottom with a knife.
3. Plant in seed starting soil, 4-5 seeds in each small pot or paper cup.
4. In 3-4 weeks transfer seedlings to larger pots with soil.
5. Continue to water until ready to harvest for Pesach.
