

Apple and Honey Dish

Apples and honey are traditionally associated with welcoming the new year. For this project you will need a small glass sherbet dish, a 6 or 8 inch glass dish, some outline sketches of designs or letters spelling *L'Shanah Tovah*, tape (either scotch tape or masking tape), and paint markers for glass (available at any art supply shop).

The sherbet dish will be the honey dish. Place the outline sketch on the inside of the dish. Tape it to secure it. Following the sketch, paint your design on the outer side of the sherbet dish.

For the apple dish, place the outline sketch face down on the inside of the dish. Secure with the tape. Paint the underside of the dish either at the center or along the outer edge of the dish.

Note: These dishes must be washed by hand.
