

PASSOVER AFIKOMAN BAG

CH #16

MATERIALS NEEDED:

A strip of material – satin or polished cotton - 14¼” long x 9¼” wide.

DIRECTIONS:

1. Run a narrow rolled hem around the entire piece of fabric.
2. Place material lengthwise, right side down, on table and mark off 2 inches from the top.
3. Fold up from the bottom to the 2-inch mark.
4. On the bottom section, right side of material, trace the word **Nmvqypa** ((design enclosed)).
Here is where you can display your originality and artistry. Center or slant the design to suit your taste. Put a piece of dark Dritz carbon paper, carbon face down, on the material. Place the design on top of the carbon paper and trace – pressing hard with a ball point pen.
5. Turn down your 2-inch flap and trace the smaller design in the same way as the other.
6. Embroider the designs in spring colors – blues or greens.
7. Turn up flap to sew up the two sides (until flap) – overhand or machine stitch – then turn down flap.
8. Use a button and loop to close flap. (Optional)
