Crafts: Any age

A PRESENT FOR A TREE: A BIRD FEEDER

Materials:
• stale or oven-dried bagels or pine cones
• paper sandwich bags
• peanut butter
• cooking spray
• 18” lengths of twine or wire
• birdseed
• spoon or spreader

Directions:
1. Take the bagel or pinecone and thread twine or wire through the hole in the bagel, or around the top of the pinecone.
2. Coat it liberally with peanut butter. (Hint: Coat the hands with a small amount of cooking spray or vegetable oil to keep the peanut butter from sticking.)
3. Dip the well-coated bagel/pinecone into a pan or bowl of birdseed and dredge it completely, covering all surfaces with the seed.
4. Place it in a sandwich bag to transport home.
5. Hang the birdfeeder on a favorite tree.
